WORK EXPERIENCE

PRODUCTION DATA

Jan 2024 - Present

Emirates National Poultry Farm (IFFCO), UAE

- Collected and validated daily live poultry intake data, including bird counts, weights, and supplier or farm details, to maintain accurate production records.
- Monitored and updated real-time inventory records for chilled and frozen products, tracking inbound and outbound stock movements across operational systems.
- Reconciled physical stock levels with system records, investigated inventory discrepancies, and supported timely resolution.
- Prepared daily production and inventory reports, dashboards, and performance summaries using Oracle and SAP for operational stakeholders.
- Collected and validated production data from operational systems and manufacturing equipment, ensuring accuracy, completeness, timeliness, and availability.
- Investigated data anomalies, inconsistencies, discrepancies, and unexpected production trends to support reliable operational reporting.
- Maintained production and inventory documentation, including data definitions, lineage, and quality standards, to support data integrity and traceability.
- Collaborated with operations teams to clarify production data requirements and communicate actionable findings to production managers and business stakeholders.
- Automated recurring data extraction, transformation, and reporting tasks to improve the consistency of production information.
- Analyzed production metrics to identify inefficiencies, bottlenecks, and opportunities for operational improvement.
- Supported database maintenance, data integration, and system upgrades while maintaining accurate operational records.

SKILLS
